

Setting Patient DNA Profile

Note: Each patient DNA profile is defaulted to the office DNA

In Appointment Information
Select Pencil Icon in patient DNA
profile

In the drop-down menu select the
Profile you want to set

Press Save.

The screenshot displays the ACME V Appointment interface. The top section, 'Appointment Information', shows patient details: Patient: HO, Age: 46, Appointment Date: 2025-08-19 07:30:00, Appointment Provider: Carla Donovan, Operator: 34, Patient last visit: 2025-04-01, Patient DNA Profile: Office DNA (with a pencil icon), and Insurance: SSQ InsuranceCompany (master). A red arrow points to the pencil icon next to 'Office DNA'. The right section, 'Patient History', lists treatments: Scaling (4 months ago), Bitewings (8 months ago), Fluoride (8 months ago), Polishing (8 months ago), Recall Exam (17 months ago), and Resto, Tooth Coloured, Perm Post, Molar, Bonded 1 surf (24 months ago). The bottom section, 'Applicable services', shows a table with columns: Code, Service, Min., and Charge. The table lists three services: Ext, 01202 Ext, and RNA45 Prc. A red arrow points to the 'Patient DNA Profile:' dropdown menu, which is open, showing a list of options: Office DNA (selected with a checkmark), High Risk Caries 6 Mos Recare, High Risk Caries 9 mos Recare, Low Risk Caries 6 mos Recare, and Low Risk Caries 9 mos Recare. A red arrow points to the 'Office DNA' option in the dropdown menu.
