

Adding Patient Specific DNA

Open the patient's appointment on the **calendar** in RNA180

Scroll down to Applicable Services and click the **Due** button.

The screenshot displays the RNA180 appointment interface. At the top, there's a status bar with a green 'Excellent!' indicator, a circular progress bar, and a timer showing 'Applicable Time 01:00:00' and 'Remaining Time 00:00' for a '60mins' appointment. Below this, the 'Applicable services' section is visible, listing various dental services with their respective codes, minutes, and charges. An orange arrow points to the 'Due' button next to the 'Complete oral/new patient' service (code 01103, 30 minutes, \$191). To the right, the 'Appointment Plan' section shows a list of services to be performed, including 'Review client chart to prepare for procedure', 'Review client chart and gain consent', 'Bitewings Four Radiographs', 'Exam recall (adults) Recall Exam & Diag', 'Fluoride (adults) Fluoride- Varnish', and 'Polish & Floss (adults)'. At the bottom, there are fields for 'X-Ray Rx' and 'Examining', and buttons for 'Close', 'Save', and a back arrow.

Code	Service	Min.	Charge
01103	Complete oral/new patient	30	\$191
